Application of:

KUONI, Christian

Patent No. 6,764,970 ^{b1}

Serial No. 09/980,292

Filed: November 29, 2001

WOVEN LABEL MADE FROM FUSIBLE

THREAD MATERIAL

Examiner: Burt, Charitta A.

Group Art Unit No. 1771

**Certificate
SEP 02 2004
of Correction**

Honorable Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

REQUEST FOR CERTIFICATE OF CORRECTION

The above-referenced Patent, No. 6,764,970 was issued with a typographical error in Claim 2., in the second line where the word "thread" should be "threads". Attached is a copy of page 3 of the Amendment to the Claims dated 12/04/2003 showing the correct wording as filed.

It is, therefore, respectfully requested that a Certificate of Correction be issued with the correct wording: "...embroidery weft threads which form a figure...".

Respectfully submitted,

HOVEY WILLIAMS LLP

Application No.: 09/980,292
Amendment dated December 4, 2003
Reply to Office Action of September 5, 2003

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A woven label made from fusible thread material, comprising:

a ground fabric formed from ground warp threads and ground weft threads, said ground fabric having nonfolded longitudinal sides and foldable narrow sides; and

code weft threads which make an invisible bar code and, when observed in visible light, are essentially visually identical to the ground weft threads and can be distinguished from the ground weft threads when exposed to radiation taking effect outside the visible ~~rand~~ range and which are tied in the ground fabric, wherein the longitudinal sides are oriented transversely to the ground warp threads and the code weft threads run parallel to and at a distance from the longitudinal sides, said code weft threads floating below the ground fabric and being led onto the top side of the ground fabric in order to form a bar code.
2. (previously amended) The label as claimed in claim 1, wherein the label has embroidery weft threads which form a figure and run parallel to and at a distance from the longitudinal sides, said embroidery weft threads floating below the ground fabric and being led upward to form the figure.
